

DENDRITICS LLC

DYNASEAL DS 100 RAW CONCENTRATE

ONE COAT. Years of protection.

- ◆ Bond lasts 10 years on vertical surfaces and six years on horizontal surfaces
- ◆ Ultra-low VOCs, safe for the environment
- ◆ Waterproofs and protects against water, mold & mildew stains, and UV damage
- ◆ Reduces airborne black mold
- ◆ Non-film-forming, clear formula won't discolor surfaces
- ◆ Helps prevent wood from cracking, splitting, and warping
- ◆ Protect against de-icing salts and pool chemicals
- ◆ Easy cleanup with soap and water

Heat, cold, light, and moisture have met their match with eco-friendly Dynaseal, a highly effective, multipurpose sealant to waterproof and protect all types of wood, concrete, and masonry surfaces. Available in clear or 16 tints. Made in the U.S.A.

You license it. You dilute it. You label it.

Give your customers the long-lasting surface protection they need with a product they can trust, sold by you. Comes in 55-gallon drums. Email info@dendriticsllc.com to learn more about pricing and licensing.

Get the protection you need to safeguard your investment.

WOOD
(All types) Decks, Fences, Docks, Piers, Roof Shingles, Shingle Siding, Wood Playgrounds, Planters, Furniture, Log Homes

CONCRETE Walkways, Driveways, Curbs, Steps, Platforms, Loading Docks, Ramps, Floors, Parking Decks, Chimneys, Retaining Walls

OTHER Stucco, Brick, Tile (unglazed), Granite, Slate, Limestone, Gravestones

LEARN MORE

Revolutionary nanotechnology provides a powerful, protective barrier.

Unlike most sealants that sit on the surface and wear away quickly — requiring reapplication every year or two — Dynaseal uses nanotechnology to penetrate deep into the substrate. This creates a breathable, flexible barrier that becomes part of the cellular structure, preventing water from seeping in while allowing moisture to escape.

“Green” formula gives customers peace of mind.

Safe for humans, animals, and plants, Dynaseal’s water-based, odorless formula has ultra-low VOCs.

Prevent paint from peeling and masonry from efflorescence

UV-stable Dynaseal is an ideal primer, safeguarding wood from fungal and microbial attacks while locking out moisture to keep paint looking like new. Likewise, one coating of Dynaseal on masonry eliminates the risk of mold and structural damage that can result from uncontrolled water.

Quick to apply, fast to dry, easy to clean up, safe to store.

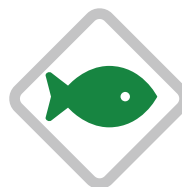

No need to wait for warm weather to apply. If the temperature is above freezing, you’re good to go. Product may be painted or stained within hours of application, ensuring a waterproof substrate. Store without worry since formula is nonflammable (fireproof class B). Cleans up easily with soapy water.

One-and-done application cuts labor costs in half.

Unlike popular competitors that require two coats to get the job done, Dynaseal’s unique formula has a higher level of solids, allowing you to coat once and be done. This means the product lasts twice as long but takes half the time to apply.

Higher concentrate for a higher yield without sacrificing effectiveness.

Dynaseal DS 100 Raw Concentrate is an ultra concentrated formula. Dilute 3:1 with clean water for a ready-to-use retail product (Dynaseal DS 300) or 2:1 for Dynaseal DS 200 Multi-Surface Concentrate designed to be diluted by the distributor and privately labeled.

ABOUT DENDRITICS

Inspired by advanced nanotechnology. Driven by outstanding performance.

Dendritics LLC was founded by Hank Croteau, a leader in the industrial supply and coating business for more than 30 years, and Mike Cork, a polymer chemist with 9 patents. Joined by a shared commitment to protect the environment and the health and safety of their customers, Dendritics manufactures eco-friendly products that not just work but outperform their competitors.
