

**Looks like glass,  
protects like rock.**

- ◆ Eco-friendly, safe for people, pets, and plants
- ◆ Ultra-low VOCs formula
- ◆ Excellent flexibility, abrasion, and mar-resistance
- ◆ Non-yellowing properties
- ◆ Single component-neutral odor
- ◆ UV-stable to safely absorb sunlight and efflorescence
- ◆ Easy cleanup with soap and water

**H**igh-gloss, high-impact-resistant Dynaseal Poly-Rock Gloss forms an abrasion- and mark-resistant topcoat to prevent wear and tear on high-traffic areas and keep surfaces looking like new. Eco-friendly, quick-drying formula delivers excellent adhesion to both cementitious materials and wood. For exterior and interior use. Made in the U.S.A.

**You license it. You label it.**

Give your customers the high-quality topcoat protection they need with a product they can trust, sold by you. Comes in 55-gallon drums. Email [info@dendriticsllc.com](mailto:info@dendriticsllc.com) to learn more about pricing and licensing.

## Add a little gloss — and a lot of protection — to a wide range of surfaces.

Parking Decks,  
Retaining Walls

**OTHER** Stucco, Brick,  
Tile (unglazed),  
Granite, Slate,  
Limestone,  
Gravestones

## LEARN MORE

### Designed for top coat applications on a wide variety of substrates.

Apply over tinted Dynaseal DS300 Waterproofers on wooden decks to prevent wear. Seal concrete floors to eliminate dusting. Add a layer of protection to masonry, stone, and metal. Versatile Poly-Rock can be used wherever you need it, inside or out. (Decks require a non-slip surface — ask about our anti-skid product.) Color options available.

### “Green” formula gives customers peace of mind.

Safe for humans, animals, and plants, Poly-Rock’s water-based, odorless formula has ultra-low VOCs.

### Prevent UV damage to substrates and surfaces.

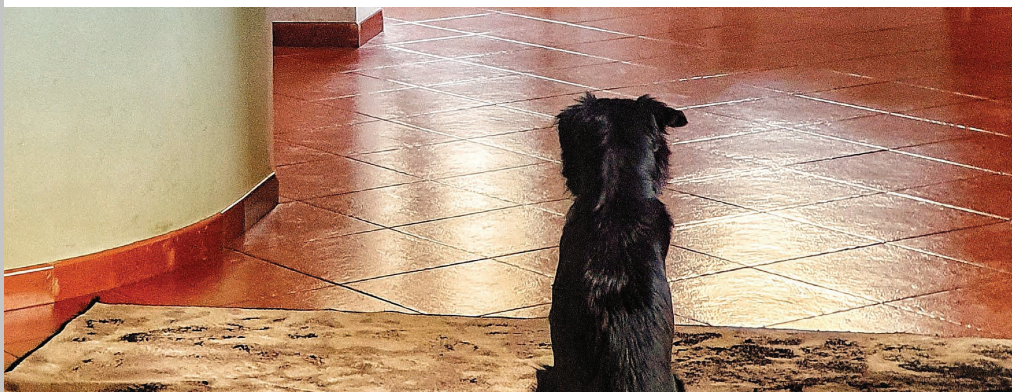

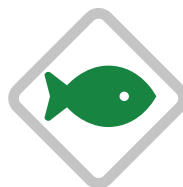

UV-stable Poly-Rock is an ideal topcoat, safeguarding substrates from wear and tear and surfaces from risk of photobleaching. Colors stay true, year after year.

### Quick to apply, fast to dry.

No need to wait for warm weather to apply. If the temperature is above 40°F/5°C, you’re good to go. Apply one coat, wait two hours, then apply the second. Works with a good-quality bristle brush, short-nap roller, or a conventional or airless sprayer.

### Easy to clean up, safe to store.

Store without worry since formula is nonflammable.  
Cleans up easily with soapy water.

## ABOUT DENDRITICS

### Inspired by advanced nanotechnology. Driven by outstanding performance.

Dendritics LLC was founded by Hank Croteau, a leader in the industrial supply and coating business for more than 30 years, and Mike Cork, a polymer chemist with 9 patents. Joined by a shared commitment to protect the environment and the health and safety of their customers, Dendritics manufactures eco-friendly products that not just work but outperform their competitors
